# Routine Food Inspection

Cash & Carry Catering, LLC  
Cash and Carry Catering  
8103 W Tower Av  
Milwaukee, WI 53223

March 10, 2008

The following list of violations of the Wisconsin Administrative Code as adopted by reference in the Milwaukee Code of Ordinances Chapter 68, and/or other City ordinance(s) must be corrected as soon as possible but not later than the date specified. A re-inspection fee may be assessed if the violation is not corrected by that date. An inspection fee may be charged for any repeat violations.

Fee Amount: \$0.00

Code Number	Description of Violation	Correct By
4-602.11	The following equipment have a buildup of old dried up food debris: The three slicers in the prep area, the tube unit used for slicing potatoes, the interior of the potato peeler, and the frying baskets near the fryers. All equipment must be cleaned after use or at least every 4 hours. Do not allow old food debris to dry and accumulate on the food contact surfaces. Clean and maintain clean all equipment.	03/10/2008
4-601.11	The clean utensils near the warewash sinks are mixed with old food particles and other dirty utensils. All clean equipment and utensils must be stored in areas where they will not come into contact with food waste/debris or dirty equipment/utensils. Instruct all employees to properly clean and sanitize all dirty equipment/utensils and store them in a clean location away from dirty equipment/utensils and food waste/debris.  Observed food equipment parts (slicer) and cutting boards being placed inside the food preparation sink basins. Food preparation sinks may only be used for food preparation and may not be used for hand washing or washing equipment/utensils. Remove the equipment parts and cutting boards immediately. Clean and maintain clean the sink basins at the food preparation sinks.	03/10/2008
5-202.11	The handsink drain near the slicers (potato slicer) is clogged. Have the handsink drain repaired so that waste water may drain away as designed.  The faucet at the salad preparation sink is leaking. Properly repair the sink faucet so that it functions as designed.	03/24/2008

## Inspection Notes

Frank P. Zeidler Municipal Building, 841 North Broadway, Room 304, Milwaukee, WI 53202-3653 Phone: (414) 286-3674 Fax: (414) 286-5164  
web site: [www.milwaukee.gov/health](http://www.milwaukee.gov/health)

Label all spray bottles with the chemical name of the contents.

At the warewash sinks, the far left sink is to be used as the prewash sink. The next sink over is to be used as the wash sink (soap and water). The next sink basin over is to be filled with clear water for rinsing. The far right sink is to be filled with sanitizer/water solution for sanitizing equipment/utensils/wares. Additionally, the far left drainboard will be the "dirty" drainboard; where all dirty equipment or utensils will be stored for washing. The far right drainboard will be designated as the "clean" drainboard. This drainboard will be used for air-drying equipment/utensils/wares after sanitizing.

In the slicer prep area, there is no base cove installed along the wall/floor junction. Properly install base cove for the prep room by the next routine inspection.

In the slicer prep area, there is no frp board installed on the walls (currently, the wall is painted brick). In all prep areas, the walls must be smooth and cleanable. Install frp board on the walls in the prep room.

On 3/10/2008, I served these orders upon Cash & Carry Catering, LLC by leaving this report with
